Claims 4-6, 9 and 14-17 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over WO 95/09601 for the reason set forth in the Office Action of 02/05/02.

Applicant's arguments filed 08/12/02 have been fully considered but they are not persuasive.

Applicant contends that the WO patent does not disclose any formulation which is suitable for topical application to the eye. This argument has not been found persuasive. Note that the WO patent discloses azithromycin in aqueous solutions, emulsions and suspensions (page 5, lines 15-19), which could be used for topical application to the eye. Further, note that a claim to a composition for topical application to the eye containing an old chemical compound and solvent for compound is not patentable. Recital of solvent is unpatentable limitation. The effective ingredient, chemical compound is still old that it is carried by a solvent or diluent does not change the effective character of the compound. Ex parte Billman, 71 USPQ 253.

Claim 7 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
